The war for the Tephra Crater and the City of Uryx continues... Having already destroyed the Mandrake Bastion and breached the outer defences, Orius leads the Adamantine Warrior Chamber of the Hammers of Sigmar deeper into darkness. They will need all their faith and courage if they are to prevail against the Bloodbound hordes of the warlord Anhur. Get your first look at the rituals of the Khorne Bloodbound. Find out why Slaughterpriests are so exalted (and badass) and why there have to be eight champions in a warband - and what someone has to go through to become one of those eight. Watch out – it's gonna get messy.
