Social work graduate school is only the beginning of your preparation for professional life in the real world as a clinical social worker. Dr. Danna Bodenheimer serves as a mentor or a supportive supervisor as she shares practice wisdom on topics such as thinking clinically, developing a theoretical orientation, considering practice settings, and coping with money issues. She addresses the importance of supervision and how to use it wisely. A frank discussion on the important and rarely-talked-about issue of loving one's client is followed by a practical look at next steps—post-graduate options and finding your life's work in clinical social work. Altogether, *Real World Clinical Social Work* will serve to empower you as you find your own voice, your own way, and your own professional identity.
