Finding Destiny is the second book in S. E. Reichert's enchanting Southtown Harbor series in which a charismatic young woman moves to a small town in Maine that is inhabited by supernatural residents. Eight months after the close of Fixing Destiny, Destiny Harrison still mourns the loss of her ghostly companion, Jack Donovan. And while Jack's soul may have moved on, his spirit hasn't-and he has been haunting the dreams of both his best friend, Joe Westin, and his son Daniel, who Joe and his wife adopted and raised as their own. When Joe suffers a heart attack, Daniel is drawn back to Southtown Harbor, and Destiny is none too pleased to encounter him. Despite all efforts to the contrary, sparks fly when the two meet. Regard of Jack's efforts to bring them together, they're simply not ready for each other as both Destiny and Daniel struggle to overcome their pasts and learn to trust each other. Capturing all the magic of a coastal New England hamlet, Finding Destiny will find you in the throes of a wonderfully mystical and satisfyingly complicated paranormal romance.
