The debut novel from Anthony Head is a psychological thriller set in Bloomington, Indiana. To cope with chronic nightmares, college senior Stuart Patterson immerses into lucid dreaming—a technique that allows the dreamer to control his actions in the dream. For Stuart, it opens a universe of possibility that only exists while he's asleep. When dreams begin eclipsing waking life, he confuses which world means the most to him and which world comes with real consequences for his actions. (Paperback/366 pages/H2H Publishing 2010)
