Essie realized that God had bed her after all, bed her with the ability to have children, and with this ability, she was able to survive. Having kids was her survival tool, as well as her bargaining tool. So far, it seemed that she was at the losing end of all of her previous bargains, but she still had high hopes. Like an addicted gambler, she kept betting on the future prospects of her kids. An inspiring and unique religious novel. Read about Essie's road to heaven in spite of her turbulent single parent life. Fantastic novel for Mother's Day and the treat-yourself-days. (If you like The Color Purple movie, you will definitely love this story).
