Normandy, 1035AD.

Duke Robert has died on pilgrimage, leaving his seven year old son William as his heir. This unprepared boy finds himself thrown into the power games of the great men of Normandy, who do not hesitate to use the most deadly means to gain power.

Who can he trust, when every courtly smile could hide a wolf's fangs? With Normandy's very existence threatened by the ambitions of his bitter rival, the Duke of Anjou, and his cunning overlord, the king of France, William must stand up to rebellions by his own querulous barons and unite Normandy against its enemies. Only then can he forge his destiny and become the Conqueror.
