Set in Regency England, this is the story of Adrian, Earl of Greystone, who is tricked into marrying Kate by her scheming uncle, an old enemy of his. Gentle Reader, Let me say straight off, it was not my idea to trap England's greatest hero and most eligible bachelor, the Earl of Greystone, into marrying me. My uncle, Lord Charlwood, was the moving force behind that little plot. If my father hadn't been murdered and left me in Charlwood's power, none of this would have happened. So now I am Lady Greystone, a countess and a wife. Learning to be the first is not that difficult. Learning to be the second would be much easier if only I weren't in danger of tumbling head over heels in love with the one person who is beyond my reach—my husband. If I cannot win Adrian's love, however, I am determined to win vengeance for my father.

I have vowed to unmask his murderer and I don't care what kind of danger I may court in doing so. If you, Gentle Reader, would like to find out how my various problems unravel themselves, read on.

With sincere affection, Kate, Countess of Greystone
