Roxton Family Saga Book 1: Julian and Deb's Happily Ever After 1760s England and France: Based on real events, a hasty midnight marriage establishes a dynasty. Just twelve years old, and drugged with laudanum to make her compliant, Deborah Cavendish is woken in the middle of the night and married off to a distraught boy not much older than herself. Years later, Deb stumbles across a wounded duelist in the forest, and it is love at first sight.

Deb has no idea the wounded duelist is in truth her noble husband Julian Hesham, Marquess of Alston, returned to England after years in exile to claim his wife. Remaining incognito, Julian is determined Deb will fall in love with him, not his title, and sets out to woo her before she can be seduced by a persistent suitor with ulterior motives. Their marriage, and the future of the Roxton dukedom, depend upon it. Set in the opulent world of the aristocracy and inspired by real events, Lucinda Brant delivers another lavish 18th-century experience in her trademark style—heart-wrenching drama with a happily ever after.
