Peru and Bolivia have become very popular tourist destinations because, mainly, of the amazing stone remains left behind by cultures such as the Inca. Machu Picchu is the number one popular site for travelers to South America, yet how many of these visitors realize that many of the famous, and known megalithic sites are much older than cultures such as the Inca? In this book, Brien Foerster shows you that places such as Cusco, Puma Punku, Tiwanaku and even Machu Picchu were initially constructed thousands of years before the Inca or other famous people existed. Mounting evidence shows that prior to the end of the Ice Age, 12,000 years ago, very advanced cultures existed in Peru and Bolivia, and had advanced high technology.
