"The foundation of any deal is trust," he growled. "Now say it. Say yes." Book 2 of 4 of the completed serial Artist Margot Trask has come to the end of her rope and has nowhere else to turn. On the verge of losing her house and her career, she also manages to let the sale of a lifetime slip away.

With nowhere else to turn, she falls into Jackson's steady, solid orbit. He seems so kind, so tender... Yet it's Declan who offers her a real solution - one she is too proud to even consider. Or is she? Declan insists that she can take it - in fact, she can take them both. ****cliffhanger warning. Intended for mature readers****
